FYI

Click on ASA/Mallampati. Then “procedure notes” to do the note.

The screenshot displays the Epic Hyperspace interface for a patient named Henry Ford PRD - JAVIER D. The left sidebar contains navigation options such as Patient Summary, Chart Review, Results Review, Synopsis, Doc Flowsheets, Intake/Output, Notes, Rounding, and Consult. The main content area shows the 'ASA/Mallampati' procedure selected, with a 'New Reading' button. Below this, the 'Procedure Notes' section is visible, featuring a 'Create Note' button and a 'Go to Notes' button. A table titled 'All Procedure Notes' lists the following data:

Author	Service	Author Type	Cosign	Status	File Time
Bronwyn Small, MD	Intensive Care	Resident		Signed	07/23/2014 11:24 PM
Bronwyn Small, MD	Intensive Care	Resident		Signed	07/23/2014 8:30 PM

At the bottom of the page, a green bar displays the user information: Bronwyn Small, MD, Resident, Signed, Intensive Care.

ASA/Mallampati MUST be done before procedure starts.

Choose "ICU Bronchoscopy" to do the note.

The screenshot displays the Epic Hyperspace interface for a patient named Raymond Marion. The main window is titled 'NoteWriter' and shows a 'Select Procedures' dropdown menu. The 'ICU Bronchoscopy' option is highlighted with a red circle. The interface includes a navigation bar at the top with icons for Home, Schedule, Patient Lists, In Basket, Patient Station, Chart, and Patient Images. The left sidebar contains sections for 'New Procedures' (with buttons for Arterial Blood Gas, Burn Treatment, Chest Tube Insert, Endoscopy Carotid, and Eye Glass Removal) and 'Current Orders' (with a button for Cardiovascular Catheterization). The right sidebar shows patient information, allergies (None), vitals (Last recorded: 07/24 1200), and a problem list (STEMI, Cardiac arrest, Multiple VT/VF Arrests).
