

## PCCM Back-up Schedule

### **CORE Fellows:**

- MICU (5 fellows)
- IPD Consult (1 fellow)
- F2 (1 fellow)
- Bronchoscopy (1 fellow)

### **GUIDELINES:**

- A total of 8 fellows are needed to cover inpatient CORE services.
- If a CORE FELLOW feels that needs coverage, please NOTIFY IMMEDIATELY to the Chiefs by phone.
- The list for back-up was made based on previously existent Back-Up system implemented, however it was modified based on availability of fellows from other rotations.
- Fellows from “non-core” rotations in pulmonary (like PH, ILD, Transplant, PFT and research) were placed on the back-up schedule. All of them will be removed from their current rotations and stay at home in order to decrease exposure.
- Some services (like bronchoscopy) will reduce the amount of fellows in order to decrease exposure.
- Fellows who are currently rotating on other “elective” rotations: SICU, CV-ICU, Neuro-ICU will remain on their rotations until the end of the month. However, if the need arises, they will also become part of the Back-up schedule.
- CCM fellows, in contrast to Pulm/CCM fellows, can cover ONLY MICU or Bronchoscopy.
- If a fellow is pulled to cover, the coverage will be on the periods indicated below.
- After a fellow is pulled to cover (for 5 weekdays or 2 weekend days), it is expected for that fellow to go to the “bottom of the list” of coverage.
- If a fellow is pulled to cover for 1-2 days only, the fellow will return to his/her original position on the list.
- Please keep in mind that there may be EXTREME situations in which 2 fellows could be needed to cover the same service/team.
- When the situation goes back to normal, all the fellows will return to their original rotations.
- Arrangements will be made for the fellows to have their elective rotations in the future.
- **Triage will be covered by IPD consult until noon M-F** and they will hand it over to the fellow on call
- **If someone volunteers, you go to the bottom of list after you do the volunteered time**
- This is a time for ALL OF US to show what WE ALL ARE MADE OF. We know it will be DIFFICULT, but at the end, we will be VICTORIOUS. Feel PROUD of what you are doing. WE ARE ALREADY PROUD OF YOU.

## **GUIDELINES WHILE OFF SERVICE**

**Here is education to complete while you are at home:**

Ultrasound Modules

QI modules (IHI)

Reading material from the pulmonary specialty services (PH, ILD, Transplant, Bronch)

HFH University modules (especially on how to do a video visit)

You can also complete video visits on your patients that were scheduled
